THE

Mineralogical Magazine

AND

JOURNAL

OF THE

MINERALOGICAL SOCIETY

(Instituted February 3, 1876)

Edited by L. J. SPENCER, C.B.E., F.R.S.

VOLUME XXVIII

(Nos. 196–207, 1947–1949)

LONDON

GEOFFREY CUMBERLEGE, OXFORD UNIVERSITY PRESS

Amen House, Warwick Square, E.C. 4

1949

TABLE OF CONTENTS

[No. 196, MARCH, 1947] PAGE

Bye-laws and List of Members vii

Proceedings of the Mineralogical Society for 1946 xxxvii

M. A. Peacock and L. G. Berry: Studies of mineral sulpho-salts: XIII—Polybasite and pearceite. (With Plates I and II) 1

K. Lonsdale: Extinction in X-ray crystallography 14

H. P. Stadler: The cell dimensions and space-group of pinnoite . . 26

F. A. Bannister, with chemical analysis by Miss Hilda Bennett: Whitlockite from Sebdou, Oran, Algeria 29

F. A. Bannister and G. E. Hutchinson: The identity of minervite and palmerite with taranakite 31

D. M. C. MacEwan: The nomenclature of the halloysite minerals . . 36

K. C. Dunham: Excursion to Durham and the northern Pennines . . 45

[No. 197, JUNE, 1947]

J. A. Smythe and K. C. Dunham: Ankerites and chalybites from the northern Pennine orefield and the north-east coalfield. (With Plate III) . . 53

G. R. Rigby and H. M. Richardson: The occurrence of artificial kalsilite and allied potassium aluminium silicates in blast-furnace linings. (With Plate IV) 75

C. E. Tilley, with chemical analyses by H. C. G. Vincent: Cuspidine from dolomite contact skarns, Broadford, Skye 90

A. F. Hallimond and E. W. Taylor: An improved polarizing microscope. II. All-purposes model 96

C. E. N. Bromehead: Flavus or blavus: a difficulty in understanding early descriptions of minerals 104

W. Campbell Smith and G. F. Claringbull: Pyrophanite from the Benallt mine, Rhiw, Carnarvonshire 108

J. J. Frankel: Crystals of artificial cassiterite. (With Plate V) . . 111

R. Jacobson and J. S. Webb: The occurrence of nigerite, a new tin mineral in quartz-sillimanite-rocks from Nigeria. (With Plate VI) . . . 118

[No. 198, SEPTEMBER, 1947]

F. A. Bannister, M. H. Hey, and H. P. Stadler: Nigerite, a new tin mineral 129

S. Tolansky and P. G. Morris: An interferometric survey of the micas. (With Plates VII–IX) 137

S. Tolansky and P. G. Morris: An interferometric examination of synthetic mica. (With Plate X) 146

S. R. Nockolds, with chemical analyses by H. C. G. Vincent: On tilleyite and its associated minerals from Carlingford, Ireland. (With Plates XI and XII) 151

A. Poldervaart: Subcalcic ferroaugite from Mount Arthur, East Griqualand 159

A. Poldervaart: The relationship of orthopyroxene to pigeonite. (With Plate XIII) 164
J. A. Smythe: Chemical analysis of ullmannite from New Brancepeth, Co. Durham 173

[No. 199, DECEMBER, 1947]

L. J. Spencer: Biographical notices of mineralogists recently deceased (Eighth series) 175
A. F. Hallimond, with chemical analyses by C. O. Harvey: Pyroxenes, amphibole, and mica from the Tiree marble. (With Plate XIV) . . 230
G. W. Brindley and K. Robinson: Note on the occurrence of anatase in some fireclay deposits 244
K. C. Dunham and S. E. Hollingworth: Excursion to Penrith and the north-west 248

[No. 200, MARCH, 1948]

Proceedings of the Mineralogical Society for 1947 li
C. E. Tilley and H. C. G. Vincent: The occurrence of an orthorhombic high-temperature form of Ca_2SiO_4 (bredigite) in the Scawt Hill contact-zone and as a constituent of slags. (With Plates XV and XVI) . . . 255
C. E. Tilley: Earlier stages in the metamorphism of siliceous dolomites. (With Plates XVII and XVIII) 272
L. H. Ahrens: The geochemistry of radiogenic strontium 277
A. F. Hallimond and E. W. Taylor: An improved polarizing microscope. III. The slotted ocular and the slotted objective 296

[No. 201, JUNE, 1948]

L. J. Spencer: Catalogue of topographical mineralogies and regional bibliographies 303
M. H. Hey and F. A. Bannister: A note on the thermal decomposition of chrysotile. (With Plate XIX) 333
K. C. Dunham, G. F. Claringbull, and F. A. Bannister, with a chemical analysis by C. O. Harvey: Dickite and collophane in the Magnesian Limestone of Durham. (With Plate XX) 338
W. Campbell Smith, with X-ray data by F. A. Bannister: Ganophyllite from Benallt mine, Rhiw, Carnarvonshire. (With Plate XXI) . . 343

[No. 202, SEPTEMBER, 1948]

Sir Arthur Russell: On rashleighite, a new mineral from Cornwall, intermediate between turquoise and chalcosiderite 353
L. M. Clark: The identification of minerals in boiler deposits. Examples of hydrothermal synthesis in boilers 359
O. Robins: A simple method for the measurement of the refractive indices of the felspars 367
K. W. Andrews: The lattice parameters and interplanar spacings of some artificially prepared melilites 374
F. G. H. Blyth: Pyroxene from the Squilver dolerite, south Shropshire . 380
F. Smithson: The application of phase-contrast microscopy to mineralogy and petrology. (With Plates XXII–XXIV) 384

[No. 203, DECEMBER, 1948]

G. W. Brindley and K. Robinson: X-ray studies of halloysite and metahalloysite. Part I. The structure of metahalloysite, an example of a random layer lattice 393

G. W. Brindley and J. Goodyear: X-ray studies of halloysite and metahalloysite. Part II. The transition of halloysite to metahalloysite in relation to relative humidity 407

G. W. Brindley, K. Robinson, and J. Goodyear: X-ray studies of halloysite and metahalloysite. Part III. Effect of temperature and pressure on the transition from halloysite to metahalloysite 423

C. E. N. Bromehead: Ships' loadstones 429

A. T. J. Dollar: A refractive index comparator for the microscope . . 438

S. E. Ellis: On the delimitation of diorite and gabbro and related rocks. (With Plate XXV) 447

[No. 204, MARCH, 1949]

Proceedings of the Mineralogical Society for 1948 lxv

L. J. Spencer: A list of catalogues of meteorite collections . . . 471

S. Melmore: The densest and the least dense packings of equal spheres . 479

M. Mathias: Two olivines from South African melilite-basalts . . . 486

G. Nagelschmidt, H. F. Donnelly, and A. J. Morcom: On the occurrence of anatase in sedimentary kaolin 492

D. P. Riley and E. R. Segnit: An optical and X-ray examination of the basic-slag mineral silicocarnotite 496

R. W. Johnston: Clinozoisite from Camaderry Mountain, Co. Wicklow . 505

[No. 205, JUNE, 1949]

Sir Arthur Russell: The Wherry mine, Penzance, its history and its minera productions. (With Plates XXVI–XXVIII) 517

J. Hennig: Goethe's interest in British mineralogy 534

H. M. Richardson and G. R. Rigby: The occurrence of iron-cordierite in blast-furnace linings 547

H. G. F. Winkler: Crystallization of basaltic magma as recorded by variation of crystal-size in dikes 557

H. Neumann: Notes on the mineralogy and geochemistry of zinc . . 575

J. J. Frankel: Dickite from the Witwatersrand gold mines . . . 582

G. M. Gad and L. R. Barrett: The constitution of some Egyptian clays . 587

J. W. Jordan: Alteration of the properties of bentonite by reaction with amines 598

S. Caillère and S. Hénin: Transformation of minerals of the montmorillonite family into 10 Å. micas 606

S. Caillère and S. Hénin: Experimental formation of chlorites from montmorillonite 612

[No. 206, SEPTEMBER, 1949]

F. H. Stewart: The petrology of the evaporites of the Eskdale no. 2 boring, east Yorkshire. Part I. The lower evaporite bed. (With Plates XXIX–XXXIV) 621

W. Campbell Smith, F. A. Bannister, and M. H. Hey: Cymrite, a new barium mineral from the Benallt manganese mine, Rhiw, Carnarvonshire. (With Plate XXXV) 676

P. M. Game: Plagioclases from Sultan Hamud, Kenya 682

A. K. Wells: Silica percentage as a factor in igneous-rock classification . 688

G. F. Walker: The decomposition of biotite in the soil 693

R. C. Mackenzie, G. F. Walker, and R. Hart: Illite occurring in decomposed granite at Ballater, Aberdeenshire 704

W. T. Harry and E. M. Patterson: Unusual dolomite from Portsoy, Banff. 714

E. W. Taylor: Correlation of the Mohs's scale of hardness with the Vickers's hardness numbers 718

L. J. Spencer: Eighteenth list of new mineral names 722

[No. 207, DECEMBER, 1949]

Index 743

Title-page and Contents, Errata and Addenda

DESCRIPTION OF PLATES

		PAGE
Plate	I & II. X-ray photographs of polybasite and pearceite (M. A. Peacock and L. G. Berry)	13
„	III. Photomicrographs of ankerite and chalybite (J. A. Smythe and K. C. Dunham)	74
„	IV. Photomicrographs and X-ray photographs of artificial kalsilite, &c. (G. R. Rigby and H. M. Richardson)	88
„	V. Photomicrographs of artificial cassiterite (J. J. Frankel)	117
„	VI. Photomicrographs of nigerite (R. Jacobson and J. S. Webb)	128
„	VII–X. Interferometry of micas (S. Tolansky and P. G. Morris)	144, 150
„	XI & XII. Photomicrographs of tilleyite, &c. (S. R. Nockolds)	158
„	XIII. Photomicrographs of orthopyroxenes (A. Poldervaart)	172
„	XIV. Photomicrographs of pyroxene, &c., in Tiree marble (A. F. Hallimond)	243
„	XV & XVI. Photomicrographs of bredigite, &c. (C. E. Tilley and H. C. G. Vincent)	270
„	XVII & XVIII. Talc and tremolite zones around chert in dolomite (C. E. Tilley)	276
„	XIX. X-ray photographs of chrysotile (M. H. Hey and F. A. Bannister)	337
„	XX. X-ray photographs of dickite and collophane (K. C. Dunham, G. F. Claringbull, and F. A. Bannister)	342
„	XXI. X-ray photograph and photomicrograph of ganophyllite (W. Campbell Smith)	352
„	XXII–XXIV. Phase-contrast photomicrographs (F. Smithson)	391
„	XXV. Graphs of diorite, gabbro, &c. (S. E. Ellis)	469
„	XXVI–XXVIII. Wherry mine, Penzance, Cornwall (A. Russell)	533
„	XXIX–XXXIV. Photomicrographs and photographs of evaporites from the lower bed in the Eskdale boring, east Yorkshire (F. H. Stewart)	672
„	XXXV. X-ray photographs and photomicrographs of cymrite (W. Campbell Smith, F. A. Bannister, and M. H. Hey)	681
